Experienced Full-Stack Software Engineer with ~4 years of industry experience, specializing in frontend development and building scalable, performant, and accessible web applications. Skilled in React, Next.js, TypeScript, HTML/CSS, and full-stack architectures, with a track record of delivering complex projects from scratch to production. Passionate about creating clean user experiences, solving real-world problems, mentoring teammates, and collaborating across cross-functional teams.

Work Experience

Senior Fullstack Software Engineer **MVST.** **Dec 2025–Present**
Remote-Barcelona, Spain

- Took ownership of a highly unstable production environment with frequent crashes and performance issues. Led **incident response and root-cause analysis**, **wrote post-mortem reports**, and implemented systemic fixes across caching, data fetching, and runtime behavior. Reduced crash rates to under **2% within ~2 weeks** while significantly improving overall performance and reliability.
- Re-architected critical user journeys and complex configuration flows, improving usability and performance in a highly interactive application for a well known e-commerce platform.
  Delivered a **production-grade event management platform** and integrated it to existing services, covering data modeling, API integration, and frontend architecture.

Mid Fullstack Software Engineer **MVST.** **April 2024–Present**
Remote-Barcelona, Spain

- Led end-to-end delivery of multiple Next.js applications from design to production, building scalable, CMS-driven architectures and integrating complex external systems, while mentoring junior engineers and handing projects over for long-term ownership.
- Leading frontend development for one of the largest online pharmacies in the EU, with a focus on **accessibility (WCAG standards)** and **performance optimization**.
- Built and maintained a CMS that manages over **40 job portals**, focusing on scalability and DX.
- Reduced app loading times by **50%+** through strategic **Next.js** caching and API optimization.

Junior Fullstack Software Engineer **MVST.** **March 2022–2024**
Jr Developer (Practical Experience) **Assembler Institute** **August 2021 - March 2022**

Education and Certifications

- **Masters in Software Development,** Assembler Institute of Technology, Barcelona **May 2021 - March 2022**
- **Bachillerato,** Institute Marti i Franques, Tarragona **Sept 2013 - June 2015**

Skills and Languages

- **Core Skills & Technologies:** Frontend & Full-Stack Development, JavaScript, TypeScript, HTML, CSS, React, Next.js, React Native, Redux, Zustand, Backend Development, NestJS, C#, Dart, Flutter, MySQL, PostgreSQL, AWS, Git, Headless CMS (Storyblok, Strapi, Orchard Core).
- Languages: English, Spanish, Catalan, Urdu and Hindi - All proficient to native level.
